Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is responsive to the applicant's amendment filed on December 10, 2004.

Claims 1, 4 and 7 have been amended. Thus, claims 1-9 are pending in this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Timuska (Patent Number 5,281,115).

Regarding claims 1, 4 and 7, as shown in Figs. 1, Timuska discloses a screw compressor comprising: screw rotors (10, 11); a suction/discharge side rotor shafts (20) of the screw rotors; a suction/discharge side bearing casing (not numbered; however, clearly seen in Fig. 1); a suction side angular ball bearing (26); a discharge side angular ball bearing (24) rotatably supporting the discharge rotor shafts and being held within the discharge side bearing casing (not numbered; however, clearly seen in Fig. 1).

Regarding claims 2, 3, 5, 6, 8 and 9, Timuska discloses a presser member (40) fixed to an end face of the suction-side bearing casing; and a spring member (36), wherein an annular gap (not numbered; however, clearly seen in Fig. 1) is formed between the suction side bearing casing and the suction-side angular ball bearing (26), and an outermost end face of an outer ring of the suction-side angular ball bearing is pressed through the spring member by means of the

Art Unit: 3748

presser member (40); a lubricating coating is applied to an inner periphery surface of the suction side bearing casing; means (not numbered; however, clearly seen in Fig. 1) for lubricating at least one of the bearings using the fluid; means for pressing (36) the suction side rotor bearing in the thrust direction.

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and consists of three patents: Takano (U.S. Patent 5,655,844), Beekman (U.S. Patent 5,979,168), and Achteik et al. (U.S. Patent Number 6,416,302), each further discloses a state of the art.

Response to Arguments

Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3748

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
